

# Smithsonian Institution Pre-Visit Stories

## A DISPLAY IS LIKE A CHAPTER IN A BOOK

# Exhibits and Displays

Museums have exhibits with displays.  
An **exhibit** is a very big story. **Displays**  
are the smaller stories within the exhibit,  
like chapters in a factual book.

# America on the Move

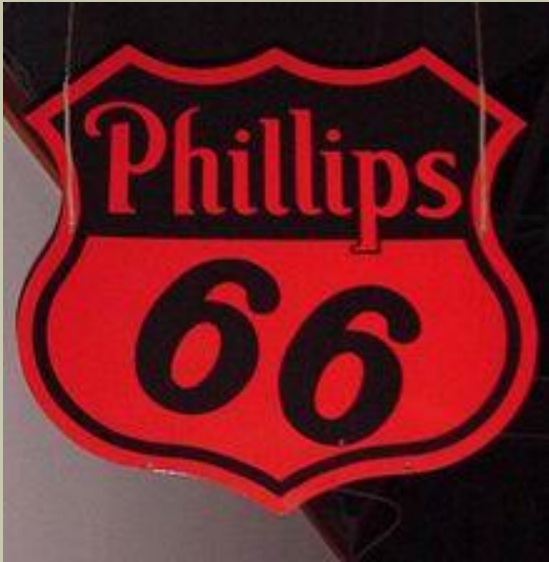

Soon I may visit the **America on the Move exhibit**. It shares a very important story about transportation in American history.

# Community Dreams Display

Like a chapter in a book, there is a **display** about **Community Dreams**.

# Route 66 Display

Like a chapter in a book, there is a **display** about **Route 66**.

# Transforming the Waterfront Display

Like a chapter in a book, there is a **display** about **Transforming the Waterfront.**

# America on the Move

There are other displays, too. Together, they share the Story of America, and how horses and carts, cars, buses, boats, trailers, streetcars, and trains, have helped Americans live, work, and play.
