SUMMARY:
The position of Assistant Editor, Science and Innovation, is part of the editorial team of Smithsonian magazine. Tasks include writing, editing and producing articles on the topics of health, wildlife, climate change, astronomy, and many other areas of scientific research, as well as technological innovation. The assistant editor will be responsible for daily news editing on these topics, including the Smart News section. The assistant editor will also be involved in generating ideas for content packages, as well as with other general editorial duties, including copy editing and production tasks.

ESSENTIAL DUTIES AND RESPONSIBILITIES include, but are not limited to, the following:

- Edit the daily news coverage on the Smithsonian magazine website, as written by outside contractors, coordinating with the Assistant Digital Editor, Humanities
- Generate original story ideas for all verticals of Smithsonian’s website, with special focus on:
  - Writing compelling articles on new developments in scientific research, explainers on science-related topics of interest to our readers, and features that offer context on current events or special anniversaries
  - Tracking the major journals to identify important studies and ensuring coverage is published in time to meet embargoes;
  - Reporting on breaking news related to science and innovation within the Smithsonian Institution;
  - Writing innovation content focused on new technologies and up-and-coming inventors
  - Identifying latest trends in public health, astronomy, wildlife conservation, scientific research, archaeology, and any areas that are science-adjacent
  - Assisting in photo research and illustrations for stories
Curating, fact-checking and updating stories from *Smithsonian* archives and partners
- Produce articles in the magazine’s content management system and be able to train new writers on how to do the same
- Help develop new content packages and content product ideas such as live events and newsletters
- Analyze traffic reports and identify trends to maximize traffic to website

**REQUIREMENTS AND QUALIFICATIONS:**

Bachelor’s degree (B.A.) in English, science or journalism from a four-year college or university and/or 3-5 years of related experience training; or equivalent combination of education and editing experience at a news gathering organization.
- Ability to communicate orally and in writing with clarity necessary to carry out duties in an efficient and effective manner.
- Excellent written, verbal, research, organizational and analytical skills.
- Experience editing work for others in a science journalism-based environment
- Understanding of basic journalism practices and ethics
- Experience with Photoshop, HTML and Web content management systems preferred
- Excellent attention to detail
- Knowledgeable of Microsoft Office Applications
- Experience with day-to-day website management and the tools utilized in all aspects of web work.
- Experience and talent working both independently and in a team-oriented environment.
- Ability to be flexible during times of change, shifting priorities, demands and timelines.
- Ability to react to project adjustments and alterations promptly and efficiently.
- Ability to learn, understand and apply new technologies and tools.

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Applicants, who wish to qualify based on education completed outside the United States, must be deemed equivalent to higher education programs of U.S. Institutions by an organization that specializes in the interpretation of foreign educational credentials. This documentation is the responsibility of the applicant and should be included as part of your application package.
