Moving the Mail
I am going to a museum. There are many things to see.
I can see a truck.
I can climb the stairs and sit in the truck.
I can see a train.
I can watch a movie. I can sort the mail.
I can see a toilet.
It is for looking, not for using.
There are computers I can use. I might have to wait for my turn.
When it is my turn, I can touch the computer to play.
When my turn is finished, I will leave the computer and can look at stamps.
