Chicago.

for W.K. Holmes, botanist.
East dormer needs fine detailing.

Godets on molding with allometry crossst + hieroglyphs.

Two monograms at ends of each dormer molding next sheet.
Fig. 51. Section of Temple of Tigres showing unique entablature profile, and parts not filled in with debatable restorations.

Fig. 52. Plan of Temple of Tigres, a gymnasionum wall, & hypokaiea.
Fig. 40. Section of nursery or palace, chichen itza, showing earliest portion c, with superstructures and additions at the right sides and left.
Fig. 28. Section of upper and lower temples, House of the Magnicians, Uxmal.

A. Steep stairway on east side about 60 feet high.
B. Doorway to upper temple, now broken down; lintel restored.
C. Doorway to lower temple. Upper steps of stairway restored.
Long vertical dotted lines indicate probable wall faces.
Fig. 37. Plan of nunnery or palace, indicating probable stages of growth. The black represents the nucleus, the grey, the first addition, the white the second addition.

Fig. 38. Sketch of southwest corner of nunnery or palace, showing breach in enclosing masonry and char of inner wall.
Fig. 26. Section of Temple of Tigers, Showing Unique Entablature Profile.

Facade of upper structure and front face of vestibule vault above the middle of the column are restored. The lines should have been uniformly dotted. Facade of lower structure may not have occurred as here indicated, for there is a possibility that other chambers existed to the right of this.

a. Section of Gymnasium wall—dotted area.
b. Hypothetic continuation of stairway.
c. Serpent column and outer chamber or vestibule.
d. Sanctuary, entered by pilastered doorway with three wooden lintels.
e. Lower Temple, with sculptured columns and walls.
FIG. 46. SECTION OF NUNNERY OR PALACE, CHICHEN-ITZA, SHOWING EARLIEST PORTION, c, WITH SUPERSTRUCTURES AND ADDITIONS AT THE RIGHT AND LEFT.
FIG. 4. SECTION OF TEMPLE OF TIGERS SHOWING UNIQUE ENTABLATURE PROFILE.

Facades of both Temples above the middle of the columns, are...
