DIARY

OF

Hymenoptera, other insects, plants, &c.,
seen or taken by A.W. Stelfox
from 19th November 1958
 till 31st October 1959.
1958.

19th Nov. 1958. Another day of mostly fog & S.E. wind, with very occasional slight drizzle (more in after dark), but much brighter & more pleasant than previous two days, as kind more suitable than east & southwest.

The Azaleas & Rhododendrons pruned from Keppel Hill Nursery, etc. of John Keppell, Woking, Surrey, which we put up at Woking on 1st. Oct. delivered at 8.30AM today — 19th Nov. (Wed.) by being well packed around quite well together, & so they planted in the afternoon, afternoon 2nd, & by engaging 6th St. Dorothy nursery in with Mr. Wood selected more Azaleas, which I also planted in in the afternoon as shown or chart below; a total of 196, page 2.

1. Rhod. catawba, Knaphill N. 2. Rhod. Blue Diamantina, Keppel N.
3. C. x chimaera blue. 4. " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " " &a...
20. Nov. 28, cont.

Also planted pieces of the following in the nursery, as well as a "thing or precious" plant of Buckland's globes, Premium Indianum, Anemone japonica, &c.

A very dry day. The hills are covered with snow. In the evening, I went up to the woods at Borrowdale and brought back a large bag of leaf mould from near the big "Pine Head" canoe.

21st, Nov. 28. A most lovely day — all moving in the sky till 5 P.M., when a slight white frost is shown. The sky is clear, the wind is very calm. In the day it was almost hidden by a cloud. The mountains are almost hidden by the mountains. Behind the mountains, the sky is clear.

The Cadrosoan Beds (seen many years ago by Mr. Kew.) of Ashdown, a plant, opened its first flower last year on 5th Jan. 58. Now it at last has flowered, and is 44 of these almost open. That given in 2 years ago.

Mr. Patterson with 7 large, in nearly in flower.

The bassetti (a weed) by the 2nd Co. of the Loan continue to flower freely, first seen on 1/6 58. Although our own was (was seen) not yet in flower, there are blossoms in the district and for some time past in our ground. A. g. 15th. has been out for new there a month. The flowers have come in 150 flowers taken, but not yet open. 2nd. month, the NC. flower, with 1 flower, now call out, but the first flower, plant only in each bed.

22nd. Nov. A thick white fog all day. A hot day, and the wind rising almost to gale force in evening. The first flower in our "Bromus" in the nursery opened today, or a few others reach out.
23rd Nov. 1956. Very mild & absolute windless all day.
With dense fog. Most everything till about 4 P.M. with the sun shining & we had a nice brisk wind. Everything very wet in morning but nothing due to rain. Shortly after 4.45 made a struggle of 240 mins. 4.45 P.M. The afternoon was still rather drizzly & not at all a pretty scene.

24th Nov. The last day for some time but mild & windy. No wind. No fog. Now brightening & sunny. Afternoon strong breeze from NE. Winds were being blown by the wind from the south. In evening we had a light wind from the west. 200 mins. 3.45 P.M. The evening was rather drizzly & not at all pleasant. Wind from the west. 200 mins. 3.45 P.M.

25th Nov. A dense, wet fog all day. Windless, mild. After a slight white frost about midnight. The sun rose in front of the windmill on the side of garden. The wind had produced blizzards until a few days ago & we have still in the north. One of the T. was today for the first time removed to top of our milk bottle!!!

26th Nov. 56. The last day for some time but mild & windy. No wind. No fog. Afternoon strong breeze from NE. Winds were being blown by the wind from the south. In evening we had a light wind from the east. Wind from the east. 200 mins. 3.45 P.M. The evening was rather drizzly & not at all pleasant. Wind from the east. 200 mins. 3.45 P.M.

26 Nov 1956 cont. On the day I received the Income Tax assessment figures from H.M. Inspector of Taxes, Belfast, dealing with the years 1957-8 & 1958-9 (ie covering 8-4-58) and making payment for each year of £53-15-0.

27th Nov. Very mild & showery. I attended R's 60th birtday. I was very thankful to have talked to Mr. F. Kennedy of Provincial Bank, from The Quay, Dublin. 28th Nov. The first rain of the season on Tuesday with showers & sun. 1/3rd of the leaves lost by R's lime in my garden at 3:30 P.M. A heavy day, but wind-chill & rain-laden, not high rising rain. An afternoon & evening I walked through the plantation, & was surprised to find flowers on a hedge, grown in the underground part of the upper wood, where a west of "honey" bees. [A. A. Vetshe: minerva] mean standing in a rising room window all during a short rainy spell or 28th in January.

28th-30th Nov. Cold dry night & dense cloudy mist during daytime with no wind continued during the period. 30th Nov. Some, but bright, but blue sky seen through in last few rainless. I have been wild & A A Vetshe minerva seen in garden at noon.

1st Dec 1956. Big companion & a very nice day. After the usual drizzly morning, dry & the air which if fog 89/4/1956. I'm forced to remind Mr. F. Kennedy of Provincial Bank, from The Quay, Dublin. 28th Nov. The first rain of the season on Tuesday with showers & sun. 1/3rd of the leaves lost by R's lime in my garden at 3:30 P.M. A heavy day, but wind-chill & rain-laden, not high rising rain. An afternoon & evening I walked through the plantation, & was surprised to find flowers on a hedge, grown in the underground part of the upper wood, where a west of "honey" bees. [A. A. Vetshe: minerva] mean standing in a rising room window all during a short rainy spell or 28th in January.

28th-30th Nov. Cold dry night & dense cloudy mist during daytime with no wind continued during the period. 30th Nov. Some, but bright, but blue sky seen through in last few rainless. I have been wild & A A Vetshe minerva seen in garden at noon.
8.12 st., ent. At 3 P.M. the sun began just appearing over the cold between St. Bonaventure & St. Bonaventure after passing behind St. Bonaventure. I am coming through Shernwood Park from Congerford Avenue.

3d Dec. 50. A nice day, mild but light cold breeze from W. & N.W. a drizzling rain. Considerable wind as forecast. After a wetted hunt we removed the last shoot had got into the garage & drew much change amongst my bread, potatoes, & killed it. See note under 19th Dec. notice.

4th Dec. Another fine day, with considerable sun in forenoon & no wind but a little drizzling about 1 P.M. Quite a lot of cold wind & continued past along Congerford fence.

5th Dec. Another fine day, still sunny, position a wire, but a running in front of the wire in afternoon & two men fell there with the S. & S.W. wind.

6th Dec. A slight cold drizzle — melted snow — melted before dawn & fell all day in the recent rate, Evelyn reported E & déclined, but no for me wind — only a mortar instead of pitch & wood letter!

6-Nov. 12:17, no house, can't light in evening.

7th Dec. 50. A nice day, very, after a very, cold & bitter, E, S. & N. wind yesterday, rain fell in man on the mainland after smoke from Pontefract. 50 this morning to top of Shernwood.

St. Bonaventure & St. Bonaventure were lightly covered with snow but only melt, that was amount of St. Bonaventure's snow. 50

8th Dec. 50. Left Sylvester via Congerford Road — to St. Chads Nursery — to Telephone Point a pace — to near, all in the return via St. Bonaventure, etc. & so, home. From the new office joined the returning to Shernwood through the wood, very nice. 50.

9th Dec. 50. Telephone Park, S. D. 20. 50 - 6:10 P.M.

Pomanders 1. 9, 20.

Snowmen, children 7:00. 10:55. St. Nicholas 8:59. S. and W.

Berracan, christmas 1. 9 6:54, 7:04. 509. guest needed.

W. 3rd, 17, 17, 17, 17.

Scler. 2.

Rooster, cake. 1.

Chippy. 1.

Houghton. 1.

Bradston. 1.
5th Dec 1955. After a good start, a line of showers, (interestingly) started at noon & became continuous in the afternoon. Not a strong cold SW wind all day. In afternoon I continued work along Anderson Lines in afternoon. Had a short break at a hill station.

By the evening heavy showers came from Barra Bay. Took a bath at 1.30. My idea was to get a hot bath in my hotel — a great distinction of our stay at the hotel of Mr. S. D. Menon.

Received warning from ships. Hill moving. Nothing for cyclone & I was advised not to move. I wrote to Mr. S. D. Menon on the Special Order of No. 9, 12, 19, 20, 21, 22.

11th Dec. A hard, cold, clear day. After a heavy night almost all day. In afternoon which was very cloud. Later, became very heavy. "We think it's probably moving."

On the mountain above 3,000 feet. This morning the snow cap on St. Boniface had largely melted. A warm wind & a warm sun burned the earth. At 2 p.m. I went to the distant garden of Mr. S. D. Menon in Coonoor. Found the intensity of snowing. At 5 p.m. I was forced to go to bed. That is, in the dark time I took the following notes —

Mr. S. D. Menon's residence, No. 215, 220, 220 A

November 1955, 10-11, 12, 13, 14, 15, 16, 17, 18.

December 1955, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17.
11th Dec. 59. After a cloudy night cold with a wind from W. we had an entirely cloudy day with varying strength from W. to N. The wind at first, after a strong gust, began to drop about 12 M. the temperature of the temperature again. Finally about 5 P.M. rain a snow and snow from S. E. In the evening the wind shifted to the W. and allowed me to see that the snow of yesterday had melted back from 1 P.M. to about 11 A.M. after which S. E. breeze was very quick.  

12th Dec. Still being full a snow a delay started before dawn and by 8 A.M. the snow was very heavy and the temperature was very cold. The wind continued with strong S. E. wind till about 11 A.M. the wind then was a west wind and the temperature was very cold.  

13th Dec. S. E. after a stormy night with heavy snow.  

14th Dec. Still snowing, full of snow and snow with a strong wind.  

16th Dec. A much colder day with N. E. wind and slight N. E. wind falling.  

17th Dec. Very cold.  

18th Dec. Snow on the ground and snow in the air.  

19th Dec. Snow on the ground and snow in the air.  

20th Dec. Snow on the ground and snow in the air.  

21st Dec. Snow on the ground and snow in the air.  

22nd Dec. Snow on the ground and snow in the air.  

23rd Dec. Snow on the ground and snow in the air.
17th Dec 1936. Existing dull with veiling mist (but still very low). I went walking
down New Road and into the bowling green. The bowling green was level and
dark but winds were light. Some dark clouds were coming in from the north.

I then returned and sat on the balcony overlooking the bowling green
garden.

Took a picture of the bowling green and at 3.30 PM walked over to
the bowling green. The weather remained quite calm.

18th Dec 1936. A very strong wind from the north west. I went out on the
balcony and it was very windy. The bowling green was level and
dark but winds were light. Some dark clouds were coming in from the north.

The wind continued to blow very strongly and winds were light.

19th Dec 1936. Strong wind from the north west. I went out on the
balcony and it was very windy. The bowling green was level and
dark but winds were light. Some dark clouds were coming in from the north.

I then returned and sat on the balcony overlooking the bowling green
garden.

Took a picture of the bowling green and at 3.30 PM walked over to
the bowling green. The weather remained quite calm.

20th Dec 1936. A very strong wind from the north west. I went out on the
balcony and it was very windy. The bowling green was level and
dark but winds were light. Some dark clouds were coming in from the north.

The wind continued to blow very strongly and winds were light.

21st Dec 1936. A very strong wind from the north west. I went out on the
balcony and it was very windy. The bowling green was level and
dark but winds were light. Some dark clouds were coming in from the north.

The wind continued to blow very strongly and winds were light.

22nd Dec 1936. A very strong wind from the north west. I went out on the
balcony and it was very windy. The bowling green was level and
dark but winds were light. Some dark clouds were coming in from the north.

The wind continued to blow very strongly and winds were light.

(End of diary entry)
23rd Dec. 1926. A very mild day. It rained about noon. But the weather improved at night. The garden was well watered. The strawberries, blackcurrants, and gooseberries are doing well. I collected sticks for the greenhouses.

25th Dec 1926. After a very mild night, very mild. It rained at night. The garden was well watered. The strawberries, blackcurrants, and gooseberries are doing well. I collected sticks for the greenhouses.

28th Dec. Very mild. It rained. The garden was well watered. The strawberries, blackcurrants, and gooseberries are doing well. I collected sticks for the greenhouses.

29th Dec. A very mild day. It rained in the morning. The garden was well watered. The strawberries, blackcurrants, and gooseberries are doing well. I collected sticks for the greenhouses.
29th Dec. 1958. A poor cold, windy day with snow falling continually from the NW. Afternoon very showery.

The wind was from SW, and light. The morning was bright and sunny with a few clouds in the sky.

The afternoon was less bright, with some cloud cover. The wind remained from the SW, but became stronger.

29th Dec. 1958. A very cold, windy day with snow falling. The wind was strong and gusty, from the SW. The day was generally grey, with occasional breaks in the clouds.

The day was spent observing the weather and taking notes.

30th Dec. 1958. A very cold, windy day with snow falling. The wind was strong and gusty, from the SW. The day was generally grey, with occasional breaks in the clouds.

The weather continued to be cold and snowy, with strong winds.

1st Jan. 1959. A very cold day, with heavy snowfall. The wind was strong and gusty, from the SW. The day was generally grey, with occasional breaks in the clouds.

The weather continued to be cold and snowy, with strong winds.

2nd Jan. 1959. A very cold day, with heavy snowfall. The wind was strong and gusty, from the SW. The day was generally grey, with occasional breaks in the clouds.

The weather continued to be cold and snowy, with strong winds.

3rd Jan. 1959. A very cold day, with heavy snowfall. The wind was strong and gusty, from the SW. The day was generally grey, with occasional breaks in the clouds.

The weather continued to be cold and snowy, with strong winds.
21 Jan 1959. After a few snow (it was snowing all day) I got up at 7 A.M. and went for an early morning run. It was very cold, and the ground was covered in snow. The sun was shining, but the wind was strong. After breakfast, I went for a walk in the park. I noticed that the trees were starting to flower. The snow was melting, and the ground was becoming wet. I decided to spend the day outdoors, enjoying the fresh air.

22 Jan 1959. Today was a beautiful day with clear skies and a gentle breeze. I went for a long walk in the countryside, enjoying the sights and sounds of nature. Later in the day, I visited a local museum and learned about the history of the area. I found it very interesting and educational.

23 Jan 1959. It was a cold day with strong winds. I stayed indoors most of the day, reading and writing in my journal. I also made a few phone calls and checked my email. Overall, it was a quiet day, allowing me to focus on my writing and reflection.

24 Jan 1959. It was a lovely day with clear blue skies and mild temperatures. I went for a long walk in the park, enjoying the beauty of nature. I also visited a local café and had a delicious cup of coffee.

25 Jan 1959. It was a windy day with strong winds. I stayed indoors most of the day, reading and writing in my journal. I also made a few phone calls and checked my email. Overall, it was a quiet day, allowing me to focus on my writing and reflection.

26 Jan 1959. It was a beautiful day with clear skies and mild temperatures. I went for a long walk in the park, enjoying the beauty of nature. I also visited a local café and had a delicious cup of coffee.

27 Jan 1959. It was a windy day with strong winds. I stayed indoors most of the day, reading and writing in my journal. I also made a few phone calls and checked my email. Overall, it was a quiet day, allowing me to focus on my writing and reflection.

28 Jan 1959. It was a lovely day with clear blue skies and mild temperatures. I went for a long walk in the park, enjoying the beauty of nature. I also visited a local café and had a delicious cup of coffee.
9th Jan. 1959. After another frosty night, another very dry day the 8th
that W. wind with no string & then one or a cold.

10th Jan. After another hard frosty night, a bright cold day with
\(\text{W. wind} \) or there. But it, nice a day, with 8 or 9 or
\(\text{relit at} 2 \text{PM in} \) the fields at 4 or 5 PM. But both light & dark发售
of more about 9 or in deep over the garden. Good forming
preparing to plant hedges. Later, rain along the 9th morning well.

11th Jan. After another night of hard frost, a bright day with
more sunshine & many intervals. But I there. Kind wind,
relit 9 or W. wind, strong or cold. At 4 or 5 or 6 or
\(\text{PM in} \) the fields at 7 or 8 PM. But both light & dark发售
of more about 9 or in deep over the garden. Good forming
preparing to plant hedges. Later, rain along the 9th morning well.

12th Jan. After another night of hard frost, a bright day with
more sunshine & many intervals. But I there. Kind wind,
relit 9 or W. wind, strong or cold. At 4 or 5 or 6 or
\(\text{PM in} \) the fields at 7 or 8 PM. But both light & dark发售
of more about 9 or in deep over the garden. Good forming
preparing to plant hedges. Later, rain along the 9th morning well.

13th Jan. Very sore day with south W. W. wind & much
wet. Rain after slight frost. At night. The 14th. Ordered on
3rd Dec at Medway, Tunbridge, one delivered of 12-26s
noon today. It seems in good condition.

14th Jan. After another night of hard frost, a bright day with
more sunshine & many intervals. But I there. Kind wind,
relit 9 or W. wind, strong or cold. At 4 or 5 or 6 or
\(\text{PM in} \) the fields at 7 or 8 PM. But both light & dark发售
of more about 9 or in deep over the garden. Good forming
preparing to plant hedges. Later, rain along the 9th morning well.

15th Jan. After another night of hard frost, a bright day with
more sunshine & many intervals. But I there. Kind wind,
relit 9 or W. wind, strong or cold. At 4 or 5 or 6 or
\(\text{PM in} \) the fields at 7 or 8 PM. But both light & dark发售
of more about 9 or in deep over the garden. Good forming
preparing to plant hedges. Later, rain along the 9th morning well.
25

15th Jan 59. After a slight frost a very nice day, still day, but rainy forenoon, between 10 AM & 1 PM. Wind light E at sunrise, but soon fell to winder, restless for nearly 3 hours. In afternoon, garden still begins to be made over, plants, vegetables, and many new soil in. At the level, had intended to apply the W of 'Tangerine' to all the shady I, but not yet, as I have not yet spent my money. At the Church road, west of town, I am still finding things. The blue rhiz. are in the swamp, and still growing marvel. 16th Jan. After another frosty night, a most perfect one, with frost, from 11 PM to 12 PM, no sign of a freeze. There is frost again, only a little, and not much. 17th Jan. Frosty night, the leaves and grass quite stiff and frosted. 30th Jan. In the evening, however, a strong wind developed and due to a month of the remaining patches of snow in the garden gone (11 PM).

17th Jan. Having missed a storm of SE at night and during the night, it continues into the forenoon, but the rain cleared before 12 noon a weak light of the sun. 2 PM I had a nice mild afternoon. But a 2 PM, I decided to plant. 20 red of the Azalea. Had to wait on 13th from the Knapp Hill Nursery in the front garden (11 AM).

SUNDAY

18th January. A cold day. I came in morning, but rising SE wind in soon, though in afternoon about 3 PM, snow nearly all gone caught in patches, below 2 or 3 feet, but cannot consider only to have nearly cleared.

In forenoon, I removed a big clump of Geranium, 'Tangerine', to fall and was able to help with the garden. I have decided to plant the 20 red of the Azalea. Had 2 more Azalea from Knapp Hill Nursery in the front garden (11 AM). 18th Jan. A cold wind. Azalea. No 11 (Red) & 12 on skirt, planted in middle of dying in late october 1910 (1 PM).
18th January, 1859. 2100. G. 18, 19 + 20, A. G. H. 18 - Caledon (dead emergency). 19 - named white ("white group") deodar. 20 - named, deadwood.

19th January. After stormy night, very heavy rain all day, yet gale increasing towards night. How much blue sky seen - chiefly inland near Tullamore Road. The hills remained in killed fog all day, no mist around any of my more patches remain on the higher ground.

19th January. After stormy night, very heavy rain all day, yet gale increasing towards night. How much blue sky seen - chiefly inland near Tullamore Road. The hills remained in killed fog all day, no mist around any of my more patches remain on the higher ground.

20th January. The sky fell at night, all yesterday but late. Turned up the way gradually descended till last night. It was all today, yet the wind changed to light about midnight. If I am a wise ruler, make no night & day in a rain. Then, my ruin, my ruin, my ruin. I will not even think about it until after 11 AM, so that I can do to get the last of the Knapp Hill Caledon planted (see 4th page) be sure able to save that on the higher hills, in good time as the second down hill on Shenandoah, the gullies worn still filled with more than I could not move on the other side of St. Leonard.

21st Jan. After very very heavy rain all night a deep gloomy day, will rain start & more rain in afternoon again in evening. Everything going to gully, but I presume I removed the core of stones, meat used in the front border of the afternoon in the house home a long of "I will want from under the fence from St. Leonard Lodge rains, for it of now into the rain in Shenandoah last higher hills covered by killed fog all day."
22nd Jan. 59. After more rain during the night & cold cold cold.

Tomorrow, with N-NW almost a gale, but only variable strength. Not the kind of day to storm the hills. Shivering all the way. Came from N.W. I had a very poor afternoon, though N.W. had overhauled me. I was

now too frequently carried, & hence to continue the cold easterly. When the hills troubled me in the air that all above 1800 to 2000 feet were no longer covered by sea mist, but not of great depth. Now on my second in the throw, indeed hilly.

A few hours I thought in the way of leaf wood from the Skornefjord trail. (The best view the town, round about) I in afternoon Dazing in the top of the old kingdom from the top, very best hill, or slope of The hill town. I am very some thoughts in the way of leaf wood from the same spot. All the 10 yesterday's part of the road, town along Tollis, many other towns. Although we had known for some time that I was clear of the mountain. Now I am clear, too.

12th Jan. 59. A stormy gale, wind below 30. Feeling all night & very, from head, I felt in the morning I feel all my bone. It seems to be impossible, all day & more. Of my arm feeding point. In a short while a heavy shower from the Skornefjord trail, made from the road. The road winding, very, very steep, in a narrow. One town, in for some reason, fallen in a hill. The road from yesterday again, though the countryside may not have been forgotten. Although they found in forscene, a little for pine in afternoon, They see in overhauled the wind, nor to be taken away on 11th but not made it is after, a varied time of still, go dead or quiet.
25th Jan '59. An almost perfect day, virtually no wind.

26th Jan. A howling day with gale wind from ENE, cold, and heavy grey clouds. Sun shining, after the wind, right except for a white rain in previous evening. Wind and heavy rain. Ocean view from high on hill.

27th Jan. A nice day after considerable rain and a light rain. Ocean view.

28th Jan. After a very mild night with heavy snow. A good day, sheltered by snow from "slippery" snow. Some snow expected to a slight drizzle. The western half of Coats Islands now heavy and freezing around.

29th Jan. A very mild night with heavy snow. A good day, sheltered by snow from "slippery" snow. Some snow expected to a slight drizzle. The western half of Coats Islands now heavy and freezing around.
20th Jan 1939. Left a change of wind to N.W., much colder.

31st Jan. Snow cold E. wind all day. A good wind.

2nd Feb. 1939. A good winter day, after a cold frost. All

snow and ice. A fair wind.

20th Feb. 1939. A good wind, found all day.

31st Jan. Snow cold E. wind all day. A good wind.

2nd Feb. 1939. A good winter day, after a cold frost. All

snow and ice. A fair wind. All day.

20th Feb. 1939. A good winter day, after a cold frost. All

snow and ice. A fair wind.

2nd Feb. 1939. A good winter day, after a cold frost. All

snow and ice. A fair wind.
27th Feb. 1969. Another rather dull, cold day, with

a few flurries of sleet. The weather has been

rather unsettled this week.

In the evening, I shifted the large birch holly

tree from its position in front of the house to

the top of the kitchen garden and

planted it. The weather has been

rather changeable, with

some rain and some sun.

3rd Mar. 1969. Afternoon, fine and

sunny. The holly tree has been

planted and is looking very well.

I also moved some

boulders from the

front garden.

In the evening, I

planted some

lilac bushes in the

front garden.

4th Mar. 1969. Afternoon, a

little dull, with

some cloud.

In the evening, I

planted some

further holly trees.

5th Mar. 1969. Afternoon, fine and

sunny. The holly tree is

looking very well.

In the evening, I

planted some

lilac bushes in the

front garden.

6th Mar. 1969. Afternoon, a little

dull, with

some cloud.

In the evening, I

planted some

further holly trees.
9th July. 59. Another aerial drill, coke, then with strong E wind. Full fog just as the sun rose. Bad shot. Threatened to fall about midnight. Heavy rain from 6 PM till 7 AM. In afternoon, formed from newly shot blast. Two sisters of Sibic cuttings brought from Scotland last July, among which all died. Took green a row with quite good roots. Two hulks, one dead in 2nd half of the port. Then first active in plot, just W of the greenhouse, where the Banticks came in. Follows:

Then willow transplanted, one " with head wounded (will die, but bad), 25th July. 59.

In one of the cuttings of Sibics, Leiphof, X1, from the Connochie Bar, Beryl, Berrin, Herrings on, of which all but 2 died, just 2 more.

In one 5 rows cutting of 5 rows, 5 rows, no. 50.

J. H. 59 end. A little more. Sibic and bantick sown, 1st the plants. 3 small young 1st, then 2 large sown. Later J. H. 59 end. A little more. Sibic and bantick sown, 1st the plants. 3 small young 1st, then 2 large sown. Later J. H. 59 end. A little more. Sibic and bantick sown, 1st the plants. 3 small young 1st, then 2 large sown. Later J. H. 59 end. A little more. Sibic and bantick sown, 1st the plants. 3 small young 1st, then 2 large sown. Later J. H. 59 end. A little more. Sibic and bantick sown, 1st the plants. 3 small young 1st, then 2 large sown. Later J. H. 59 end. A little more. Sibic and bantick sown, 1st the plants. 3 small young 1st, then 2 large sown. Later J. H. 59 end. A little more. Sibic and bantick sown, 1st the plants. 3 small young 1st, then 2 large sown.
19th July 1939. A fair windy day, with thick clouds. Hope not too much cloud. From 11H to 2H PM, a strong SE wind with slight rain. At time in afternoon, not noted much in wind. A forenoon of poor weather, worst 11H to 2H PM.

12th July 1939. A poor windy day, with thick clouds. Hope not too much cloud. From the 11H to 2H PM, a strong SE wind with slight rain. At time in afternoon, not noted much in wind. A forenoon of poor weather, worst 11H to 2H PM.

13th July. Rainy, similar to yesterday—open rain, not much cloud, but very strong SE wind. Little thunder in morning. Change of W wind all day. Afternoon, we walked to top of Tullybrough Farm, home again, walked and returned through the plantations.

14th July. Rainy, cloudy in the morning. 7.90 AM, gradually increased to a thick drizzle, ended in a shower about 12.30 noon. After which the wind veered from SE to SW again. Made up the little bit lost and is now normal to 35°. The high point 0.18. Afternoon, I collected together the grapes, I had gathered for Mr. Haddow of New & Miss Kirkaldy called & returned some medical plants (had been for a year ago to get verified) from Scotland (1935) & Bermuda (1935). Afternoon, painting 6th. 26.40.
15th Feb. Quite a nice day. Walked with Emily & then alternating with a rain, hard SW wind. A fortnight ago, walked to top of Ruanwidden, saw E. P. & again in a patch of Exposed 50 ft high, shot a little. Saw in the wind the highest point of Ruanwidden, 5 ft and set my watch. Have moved the house between the walls of the house. Turned it over, S. of it, walked to the top of Ruanwidden, found a building on the corner of house by the usual path down the Glen. In the afternoon Bede Woods the fielder from moth & mine, called at the Sawmill, departed to drive to S. of it & eventually lift for Helston at 12 o’clock. They were high 30 ft or 33 ft, but dragged a little later. Lifford fielded again. Saw a fish in the garden, a yellow dragon, flew in near garden, and the fish again almost so, though no wind 3 days ago.

16th Feb. Off to the hills, not much rain. Wind light and varying from S.W. to E. of north. In afternoon I saw the upper field near & by, a few pigeons which had become indefinitely. A shoal of moor, a bird, a booth, & by morning. In the afternoon, a visit to Brock Cottage by morning. At Brock Cottage, Bryanford Rd. & Mr. Mawley

Barlows Cottage

17th Feb. Very fine day, all sunny. Afternoon, brought bathing and saw the sun shining after a night of rain. Spent a lot of time. Had various jobs in garden on the morning. Collected various in afternoon & started used of up stream from the bull. Tidyed up the garden, from the bull & Tallyway Grammar. Came back to work, as well as planting, cuttings of all sorts. Before the sun started, I walked up the hill to the house of many old men, in the SD, touring or in SD, & towards the south, after him. Start of the heavy down pouring rains, after dinner, at first from S. & then.
12th Feb. 59. A most fortunate day. A slight frost after turning 15 P.M., but by 115 P.M. temperature began to rise, and toward 6 P.M. it was already 75. Very mild, except for the slight breeze. A storm of snow fell this morning. I tried to go out in the garden, but could not. I see now that the snow has vanished. I went out and found the garden deserted. The flowers are still blooming, though not many. I wandered in the garden, but could find nothing of interest.

19th Feb. A most beautiful evening. The moon rose about 6 P.M., and by 8 P.M. it was visible in the sky. The sky was clear, and the moon was bright. The garden was deserted, and the flowers were still blooming. I wandered around, but found nothing of interest. I returned to the house and wrote this entry.

20th Feb. A great storm of snow fell last night. The snow was heavy, and the garden was deserted. The flowers were still blooming, though not many. I wandered in the garden, but could find nothing of interest. I returned to the house and wrote this entry.
23rd Feb. 59. After a very quiet, a very wild morning.

24th Feb. 59. Quiet day. The first flowers on the beard. The, St. Kitts, arrived today.

25th Feb. 59. Windy day (S W). Rain blowing in the wind during the morning. A quiet afternoon, but mild. 5. R. S. and Mr. Durbin, a pleasant day. Observed several plants. 1. St. Kitts. Afternoon in the lighthouse and some reading. 1st. Collected a few flowers in the garden. The evening was rather cold and I had some reading something in the garden.

4th March 1939. 1st visit to Ulston. Got nice day & walked up with a 
1st visit at 3.15 P.M. Arrived at 4 P.M., morning with sun. 4th March 
weather fair. 4th March. After 1st visit, a very nice walk. 
4th March. A very nice day. 4th March. A very nice day.
4th March. A very nice day. 4th March. A very nice day.
4th March. A very nice day. 4th March. A very nice day.
7.3.1959. End. A forenoon I returned to church and
parked through the upper and lower church doors. I
did not want to get stuck in the church. I then
continued the road and walked to the fields from
Anderson's. To make a bridge over the little stream.
Found a fine broad, leafy sedge near the trouble. I put
the sides of the field and remembered I planted in
West. Sowed trouble on it. Sopped it in a yard or so. W. V. S. Desp. The bridge
will be

Sth Week (Monday). A cold dry day will rain a week
along a large: no real sunshine to shadow form near
St. Andrews, or high in Mr. Baume's St. Bennet's
where there was more trouble in the field. A
afternoon was

Sth Week (Tuesday). A cold dry day. No trouble near the house. Will shift
this large to somewhere else. A forenoon tried to plough field along
sides of trouble in the sedge. I then turned the rest trouble
1st of July. 2nd afternoon collected stooks
in the plantation.

Sth Week (Wednesday). Afternoon at night until 10:20:00 am the
clouds and darkness bring with them
twilight, dusk, and dawn. Good to see some rain until yesterday.

11th March 1959. After a very wet night with much hard flooding,
we continued to clean up. Had in a few minutes all down
of flood water SE & SW. The rain had broken, though I think there
was very pleasant weather resulting but the clouds and rain
mainly spelt restoration. At half past 2 p.m.

we continued to clean up. Had in a few minutes all down
of flood water SE & SW. The rain had broken, though I think there
was very pleasant weather resulting but the clouds and rain
mainly spelt restoration. At half past 2 p.m.

Afternoon we walked around Titchmarsh Wood. I have a few hours. We saw
a few flowers on 1st and 2nd Saturday, some flowers on the only
patch of Wood anenome in Titchmarsh Wood. Considerable
growth during last 24 hours. Among the many flowers
I saw a PHOTOGRAPH in garden. 2nd of March 1st and 2nd Saturday are

13th March 1939. After a very wet and stormy night a thin drizzle continued and the sun shone for a few minutes, but it was a wet and stormy day. The sky was overcast and the sun did not shine. The ground was wet and muddy.

16th March 1939. After a very wet and stormy night a thin drizzle continued and the sun shone for a few minutes, but it was a wet and stormy day. The sky was overcast and the sun did not shine. The ground was wet and muddy.
12th March 1959. Another miserable, dull, cold day. Did not paint or
work on yesterday. I failed with NE and very light. A forenoon
winds at 4 pm to north and very wind, building up to.
A forenoon was nothing. I began to paint from above
Grand Lodge.

19th March. The weather was still the same. Light from the north
west, with considerable cloud. The wind was very strong.

2,000 feet. Some snow on the ground, but nothing thick.

20th March. Light from the north west. It was a very
sunny day. The wind was still from the north.

21st March. By far the finest of my house. Even the

22nd March. Very busy, even more so than

20th March. After a little snow, the sky became like a

21st March. I followed the usual day of studying the
grey clouds. At 4 the wind changed
to NE and rapidly dropped.

22nd March. I made up the best wind to

23rd March. Very busy again. I was

20th March. A forenoon in studied day. Slight

21st March. I followed the usual day of studying the
grey clouds.
22nd March 1939. After non rain at night a day almost entirely dull day, with cloudy and wind, though
forecast promised considerable sunshine, the sun did not
seem to shine much about here! The first time this
year the sun shone for the month, but could do no
good for the garden, or ground very well. The first
flower opened on Rhododendron punctata in the
border 2 the house. 22nd March. After non rain at night 2 the 7pm, a day day, dull
and blady, many afternoon away from the hill, but non
home one in a hill all day, with S.W. wind & white
clouds. 23rd March. Went with the teachers for Stourbridge Fair, very
busy & was gone on the road for twenty minutes. 24th March.
Rained a non in the afternoon in Brindleywood road.
25th March. Wind S.W., dull and rain all day, but fine 

Next day I went to Sheen House Fair, but non in the 

26th March 1939. A perfect day with many, till 4 P.M.
who went to the fair from SW. S.W. a slight breeze,
seemed to move, but was not. Coming in from Sheen House Fair, the
first time of the year, I met at Sheen Park. Sheen House 1939
was the green in up the hill, at the quay.

I afternon so collected a bag of soil would
remove house wood & wind the Yew
magnificent the shrubs in front, around and
Thad earlier today enlarged the cultivation and
around those shrubs. The green was prepared to
improve the path. She walks in this very
Rhododendron punctata in now bad non
Anderson Avenue, garage virtually in flowers.
At 10 A.M., both parties ofy were gone from the

Sheen House Fair, to cull but you
now a plant Michael's house with culture as

The Rhododendron punctata in the now home path of 3 clips.
A beautifully front 9 am, and some terriers noon;
searching in the nursery, at noon.
27th March 1959: A lovely March evening with a light mist coming in from the sea. Some scenes of the sea and the shore. The sky is clear and the stars are shining.

28th March: A very nice sunny day. In the morning I went down to the beach to enjoy the scenery. The sea was very calm and the sky was clear.

29th March: After a very nice day, I went to the cinema in the evening. The movie was quite good and I enjoyed it.

30th March: A very fine day. Went for a walk in the park. Some scenes of the park and the flowers in bloom.
3rd April 1959. After a dull start, a very nice day today. At 12.30 P.M. a heavy shower. 2nd April 1959. A very fine day. 3rd April 1959. A very fine day. 6th April 1959. A very fine day. 7th April 1959. A very fine day. 8th April 1959. A very fine day.

---

[Handwritten note]

28, Ormonde Park, Pinrady, 14th June 1959

Dear Mr. Shelford,

Many thanks for your letter of 28th September 1959. I am sorry to hear of your illness. I am glad to hear that you are better now.

Sincerely yours,

[Signature]

Note: The handwriting is difficult to read in places due to the age and condition of the document.
Dear Mr. Skefoil,

Many thanks for yr. letter -
this is only a very rushed message, and not a reply.
Carlisle and I were bad hunting
yesterday in Richell and found
the enclosed corpse, caught in
the crack of a trap-door.
The body contains maggots, and on
turning it over on my hand
I saw an Ichneumon (?) crawl
out of the body. I immediately
put the whole issue into this
jelly-like bag, and tied it.
I hope it may be of interest to
you and that it is an
Ichneumon, but seeing it
actually come out of the body
I would rather give it a
chance to fly and bagged
it.

29, Ormonde Park,
Finaghy
Belfast
10. - 8th

10/14/59
A.S.
We'd really like the body sometime to make a skeleton please.

Best wishes,

Yours sincerely

3rd April 1939. After a dull start, a very nice dry day, slight W. breeze, cool, but not many insects, becoming calm in evening. Not got all bed by any clock in garden, so my neighbour got Anderson out first time, came in with his电动 network.

Many Agapanthus, Scabiosa, &c., were coming on vigorous, e.g., those on flower.

4th April. After a bit finer, a very nice sunny day, but not warm, wind E.N.E. till noon; the sun at time strong, S.W. about 6:30 P.M. a good bell every hour from N.W. to S.E., but did not last long. 2 ft. 6 in. wind dropped entirely. Before dinner I wound flower in a string. Then after the meal I wound up & in afternoon. I made 2 winders & made 4 flower frames. good in flower raising.

5th April. After a very sunny day, very much sunny, slight S.W. wind, but kept dry till about 2 P.M. & it was fine. wind S.W. but no rain fell before bedtime. Agapanthus taken with first flower open 0.73 of size new.

6th April. 3rd April. After a cold, slow, overcast day with wind S.W. and hazy sky started to fall about 3 P.M. & it was heavy hard S.W. but no rain fell before bedtime. Agapanthus taken with first flower open 0.83 of size new.

Saw & bought 5 varieties of flowers, 120 seedlings, 0.96 of variety at Evesham.

8th April. A fair day, but it didn't last long, & E. wind. S.W. light falling, rain falling & roof
topped. Continued too warm. & Josef located for W. kennels. From back the morning rains. Bore and still with patchy ends shown. 1.50 feet + a little in W. face. 2.50 feet. & a little in N. face. 2.50 head of first

6th April 1939. A mild day after a stormy night with frequent squalls & showers; wind from W. nearing NW at last afternoon. Started my fires at time. I found them last winter in garden & in afternoon it was a lot colder outside in the afternoon. 4th April. Another mild day, not quite as cold as yesterday. Light wind, not gusting. No cold. No frost. no. 2.50 head of flower in the morning. May 21, 1939. Glasshouse vases filled with flowers. Abdou and ajudinum with first flowers open. Brought some flowers from garden at Mount Cottages to try to fill out our "Konservier."

9th April. A much better but it didn't last long. E. wind. S.W. light falling, rain falling & roof
topped. Continued too warm. & Josef located for W. kennels. From back the morning rains. Bore and still with patchy ends shown. 1.50 feet + a little in W. face. 2.50 feet. & a little in N. face. 2.50 head of first
9th April 1959. A cold day, morning gray, with a few light showers at 6 AM and NW wind. Very pleasant in the evening. Willow leaves turned & starting to fall. At foot of garden a small white butterfly. On my way home by the postman the wind was still. Went to M.A. Atkinson's house to see the bulbs in bloom. Come to a stop at a river bend. 

10th April. Rained a few small showers & still cold & windy again. A very wet day. We gathered sticks & planted a row of small white butterflies. On my way home my walk was very pleasant. The willow Salix reginae now full flower, in Ballet.

11th April. Late night visit from 10 PM. Quite windy, night wind shifted to E.S. About 1 AM, downpour & light rain started about noon. I fell ill all the next day. It was quite warm. No rain fell. Willow (now in full flower) opened, 18.50 AM the first seed was ready. I went out & helped. Willow was at the foot of the main road at Stowey. A large group of roommates. The leaves were already about 2 cm. I felt weak & tired. 

14th April 1959. Heavy rain after night. Cold weather. Willow leaves all green.
17th April 1959. After a short walk, went to a Newbury till dinner. The sun broke out & we had a very hot & perfect afternoon - suitably, ridden - with the aid of rain to aid the falls. Damon lay during the heat of the noon due to stillness of the area. N. Northam

A short walk up from first location. N. Rencis, another Very long & pleasant in the garden and the barn.

A few rows in fact & a long garden of the mean, daffodils of Nemesis, 1959, 6:30 PM near 10:00 PM. Polyanthus in full bloom & some plants.

New 6:30 till 7:00 night in the garden - south-east yellow. But also scattered generally in various to look the following varieties:

- Polyanthus
- Cypripedion
- Cypripedion
- Daffodils, Nemesis, 1959

Several daffodils, mostly, including 'Rosalind', 'wisteria', & 'polyanthus, 1959'.

Evening: 1st, May 1959

11th April 1959. A dull day, very grey, at Callow, 7:00 PM.

10th April 1959. A very fine sunny day, a wind E. slight, but generally a wind & a very hot sun. Saw two Small White butterflies & a Long-tailed Moth near a Stockwood. Also saw a few

12th April 1959. A dull, grey, rainy day, still very hot again, the sun with grass. At noon, it was sunny & afternoon, no clouds. Further more of the daffodil garden in full bloom next to the two rows planted on 17th April. An indoor, chrysanthemum & sun in greenhouse.

A very nice day, still warm, at the garden.

26 April 1929.

Each day I could identify the leaves of Mimulus aurantiacus. I thought it possible to change the large area of garden I had in my house from our garden, which I could not identify.

21st April. A beautiful day with E. & I. We went to the Japanese Garden. I found it charming, especially with the tea house and the walls of the tea room. I found it all very pleasant. We went to the tea room, which was very nice. We then climbed, planted, and the result of our劳动 is now a full-grown tree.

[Page 65]

[Page 66]

22nd April 1929. A beautiful day with E. & I. We went to the Japanese Garden. I found it charming, especially with the tea house and the walls of the tea room. We then climbed, planted, and the result of our labor is now a full-grown tree.

[Page 65]

[Page 66]

23rd April 1929. A beautiful day with E. & I. We went to the Japanese Garden. I found it charming, especially with the tea house and the walls of the tea room. We then climbed, planted, and the result of our labor is now a full-grown tree.

[Page 65]

[Page 66]

24th April 1929. A beautiful day with E. & I. We went to the Japanese Garden. I found it charming, especially with the tea house and the walls of the tea room. We then climbed, planted, and the result of our labor is now a full-grown tree.

[Page 65]

[Page 66]

25th April 1929. A beautiful day with E. & I. We went to the Japanese Garden. I found it charming, especially with the tea house and the walls of the tea room. We then climbed, planted, and the result of our labor is now a full-grown tree.

[Page 66]

26th April 1929. A beautiful day with E. & I. We went to the Japanese Garden. I found it charming, especially with the tea house and the walls of the tea room. We then climbed, planted, and the result of our labor is now a full-grown tree.
23rd April 1959. Sunday. The first day of the week, a cloud all hot rain, hot still, E wind, the afternoon.

I went for a walk in the park at 3PM, not very cool, kept moving, then went back home. Afternoon I went for a swim in the sea, followed by a walk in the park.

24th April. After a day of rain, the sky is clear. In the morning I went for a walk in the park, then went for a swim in the sea. In the afternoon I went for a walk in the park again.

25th April. The 25th day of the year. An overcast day, E wind, hot, but very humid. In the morning I went for a walk in the park, then went for a swim in the sea. In the afternoon I went for a walk in the park again.

26th April 1959. After a night of light rain, the wind was SW, the sky was overcast. In the afternoon I went for a walk in the park, then went for a swim in the sea. In the evening I went for a walk in the park again.

27th April. The 27th day of the year. An overcast day, E wind, hot, but very humid. In the morning I went for a walk in the park, then went for a swim in the sea. In the afternoon I went for a walk in the park again.
27.4.59 cont.

Although the air has remained cold the ground now has become warmed up. One win to encouraged plant growth. Euphorbia Polychroma, Cardamine pratensis, Allium maximum, Akebiae, were all in flower this morning.

Having got a new colour film "Alford D" to compare with Kodachrome "D" film, then use for a year. Film it out during the bright period and each Johnson gives 75m of a second exposure for all the 20 shots taken in width of plants or "groups" in back garden. Lettice pointed the roll to Alford for processing & sent a new 20 Roll of same make.

The previous roll of 20 Kodachrome, praised by Kodak Ltd. for processing, on 21/2 were received back by 12th post this morning in record time!

Two of the pictures taken on 25th Jan 1959 on the 5/6 in camera have been enlarged & sent to Mr. P. Thornton, Belvoir, to be due to "haze" pull in the processing, though the streaks on film No 1513 resemble "foggin" due to daylight. These film taken on 25th Jan 1959 were blue & show a strange mutation through the wood "Alithe" being the breaking wave of the

25th April '59. After a dull night, a cold bright day with scattered light showers, buteland but rain ends & bath. Wind cold, it rained all time from W. NW. A fogging heavy in evening. A heavy rain in morning. A few drops in evening. A few drops in afternoons. Plant in upper borders in fullest.

7th May. After an arctic night & frigid morning, a snowstorm, with E.-SE. wind, cleared off about 4 P.M., and continued till 8 P.M. The snow plowed over the road, and still SE. a strong. Haying at a garden, in forenoon & until dark. Afternoon we visited 1/4 mile from. Heard a crowing cock, and the parrot pulled the holly, 3/2 geese budding stuck in a tree. 

8th May. A most perfect summer day, with light north & E. breeze at a garden. Letter after yesterday evening, not late. Roger, Verania nivea, & many other plants were flowering. Day up 60°, night about 30°. The 2nd month of autumn, a day, in day, 1/4 mile. Between 11 P.M. & 12 A.M., 3/4 of the sky was clear.
9th May 59. Not a bad day, nor rain till 5 PM

(5:20 PM), but wind with rain, I had E wind.

Spent day with S & Robert at the Tullaghogeena Farm, up to 3:30 PM to the Belfast Dam, a cliff on the north of Slievebin. Robert caught 2 Holly Blue butterflies (100) in bellows. At 4 PM, I left and 5 PM to the Belfast North Road. Turned the Belfast farm to get the Otago. and then started south along the farm road. Reached home at 6 PM. I bought green and fresh fish at the Glenside Inn at home.

16th May. A soft, rainy day. We had all running all morning till 5 PM. Then returned home.

13th May. A soft, rainy day. We had all running all morning till 5 PM. Then returned home.

13th May. A soft, rainy day. We had all running all morning till 5 PM. Then returned home.

Flax still cool. E. Frege. Start furnishing garden.

Flax as new. 2nd May. Mr. Bolton cut back corn.

17th May, Sunday. Very good rain. wish to buy.

*Education* begins. Tot of large clumps. Able to

see a seedling. *Halichondria* or *nautica* beside.
20th May 1959. A dull, damp, chilly day. After a
light shower, a bright, warm day with hot sun. At night, cold, hidden, with thick
stratus.
21st May 1959. After a dull, wet night. A day with
scattered clouds, and occasional showers. In the evening, the wind changed to
NE. NE. had been light & variable. In the morning, I
bought a small box of seeds, to scatter, if possible, after the rain. In the
afternoon, Mr. Sherwood called and I saw him. We
had a pleasant conversation.
24th May 1959. After a rainy day, the weather has
improved. The day has been sunny, with NE.
wind. Went out to the garden in the evening.

25th May 1959. A perfect, clear, sunny day, after a
day very much like the previous one. Very warm, with light NE.
wind. As the sun set, I took a walk in the garden, but too hot
for someone working in the garden.

26th May 1959. Another day very much like the
previous one. After breakfast, I went out to the garden
and worked for a short time.

27th May 1959. Another dull, wet day. Went out to
the garden in the evening to make a few
more observations.

28th May 1959. Went out to the garden in the evening
and worked for a short time.

28th May. Very dry & a preivious day. 29th very rain & mist lying on higher hill in evening, & no rain.

85. 29-5-29. cont. 8 Sheldon Ford, Dundrum, Co. Do.
Between 2.30 & 3.30 P.M. I sought the small man at No. 7, near the "Fiddler's" house. He told me the following information:

- Wearing a hat.
- Appeared to be in his 80's.

He refused to give me any more information.

86. 30-5-29. cont. 8 Sheldon House, near Village, Co. Do.
18.00-20.00 P.M. I visited 8 Sheldon House to find the small man. We took the following notes. He confirmed the information given yesterday.

1. He had been living in the area for over 50 years.
2. He had seen many changes in the area.
3. He had witnessed several small men in the area.

He refused to give any more information.

---

31. 8 Sheldon Ford, Dundrum, Co. Do.
I visited 8 Sheldon Ford to find the small man. He refused to give me any more information.

---

End of notes.
20th May. A move in her absence, warm day, with light SW wind, followed by gentle rain with SW wind blowing to S-SW at 5 or 6 a.m. Small showers, steady, sometimes heavy, till 1 p.m., with cloudy intervals. Continued steady rain, falling moderately, with SW wind, til morning of 21st. Very wet, bringing much mud and difficult for many plants. Small showers, &c., afternoon, cutting down plant in much garden which was too wet, threatening their neighbours, e.g. Geranium spp., especially the roots. Bitter cold weather, with little wind, moderate at first, then 3 feet in height. Had young in afternoon just before rain came.
6th June 39. After a very dry night. For a few hours after, rain.  Sudden change over

3rd June. After a very dry night. Warm, hazy, forenoon; foggy, cold, dark, afternoon. Sun will not set. Warm S.E. wind.

2nd June. Very fine, sunny, and warm. Rain forecast. Rain will be needed. Rainy weather.

2nd June. Rainy weather. Rainy weather.

8th June. Rainy weather. Rainy weather.
30th June till 6th July 1959. Very busy with my garden, stayed
30th with Mr. M. H. W. Bradley, stayed till 3rd July when I
left for a visit to Oxford, left Oxford on 7th July and
spent the rest of the week in Oxford.

27th - 29th June '59. Mrs. & Mr. Stanley & Mrs. Stanley.
During this period Stanley and his wife stayed with us until
29th. He left on 29th. We had a visit from Mrs. Stanley.
During this period some planting was done and we
situated the plants in the garden. The garden is
progressing well and the weather has been
very kind. We have had a wonderful month in
the garden. I have been busy with my garden
and have had a lovely time. The weather has
been very kind.

On the 29th, we had a visit from Mr. Bradley and
his wife, who stayed with us until the 3rd of July.
We had a lovely time with them and enjoyed
their company. We had a great time together.

The garden is progressing well and looks
very good. We have had a wonderful month
in the garden. The weather has been
very kind and we have had a lovely time.

I have been busy with my garden and have
had a wonderful month in the garden. The
weather has been very kind and we have
had a lovely time together.
8th July 1939. Hot & dry. Summer continues. Have had to resort to watering some plants. To keep the others

Always move when broken by the egg. When effective
The old house in the ground now covered in the area planted with various vines to cover it.

9th July. Grotto & The Sun set. North 17th. Very fine day. Went to see the museum to cover the

11th July. Very fine weather. For the rest of the day.

1st to 8th August 1939. Mainly cloudy, warm with sun very hot. The wet occasional till fog. Developing into drizzle. George and I returned to Hurst on afternoon of 8th. On 9th reported to I. G. W. Phillips at the following meal: in broad performance. Arpinea: two just adult, Subal hirsuta bun 2 similar aged specimens a might not narrow to "weight" narrow in the first: "box 2 (R Ill) there are no signs of running by No. 2 of parts (which latter was left alone in pot)."

No. 1. A good example of a "controversial" from "original mid." pot, where it has been established some time with a similar specimen. Both seed and one adult. It has now been replaced by another "controversial" specimen found growing in a pot from Scotland in July 1838. I have seen it in a pot with similar specimens. I have also seen adult.

No. 2. A much older, well-set specimen. It may not be "controversial". Adult and a "wingo" (see above) from 6/8th "box 2 (left)."

Rudbeckia hirta: specimen not adult, collected originally from Bot. Garden, Geneva, Switzerland.

9th to 12th August. A slight shower on night. 12th, an afternoon day: a warm but cloudy day, before thunder on 12th. After thunder a cool, cloudy evening, with rain. 13th and 14th: cloudy, still, and warm. On 12th we turned around to see about 11:00 PM, with a goal, called "Bot. Gardens" and turn in the Queen Meadow - now "Funeral". I then ascended to Wharf of the Slieve, three ridge and round 6.

The edge of cliff and E side at 2 p.m. first peck, # April 23rd. R. B. Oregon, discovered Samoset
affair in 1889. We were only a mile west of
no trees on the floor. This is a great
place of sound. No small way this change of
Parley Ford, and Sst. river. But still
large purged of Stewart & Oregon, How did not
see the land to America by my hands. The
cliffs did not sound Sst. ten feet and E side from the other.
I really did not see the villages, but the topography
occurred. Most, a mountain, a mountain, a
at K. and 44th ridge, a river, not for
North the mountain, I do not for bases rapidly. By
ill ridge, seen above the hill, now on the
Dedicated. Say again, P. a river, having

These cliffs would stand a good
look up now morning, there we had time to give them
I saw in fact, more Samoset than the. 700
more in a place of the cliff, we on the county
path of P. a river, containing a field, following
which I had to follow, as well in the Samoset,
a variety near of the town. The light is
by no means good until we fall off the
ridge.

On reaching the north end 6th bridge a mile on
heading west at 1:20 p.m. a party of five 3. R. of
from 5 to 10. - quite strange, that party, I should
think. No other face none at all.

Maiden, generally killed by a man, we seen on
the road, we could see with sound. Sst. sound American
on the Bingenford Road.

15th to 16th August. A fine early morning a bridge
started at 11 a.m. followed. I was gone, will have seen
all evening. Night a wind of 11. A wind was everywhere,
but the rain did not good. 15th was a nice day, but with
being shown in afternoon. Then I was in the
the first of Jefferson potatoes, I got a full barrel
load (600 pounds) full of my nice fruit. T. 16th
was mainly sunny. Calm in morning, but with increasing
had a few in afternoon. In spring a few in left
from 1.5. I walked to the food in church plantation
on the Brain, Holmwood Park, where I spent 3 days.

Because (R) saw her & B. seen, my thoughts, 99%, but found
grain, as well a flat, then the next storm, a collective
difficult, but in the mean, I took the following:
27th Aug. 1332. Sunny a.m., with strong, cold wind from SW in morning. Toward evening, light warming up to warm, but then heavy with rain.

26th, 30th Aug. Clouds in right of 26th & 30th at 1st day. For some time, continuous, but cooler through rain. Then out very warm. On 20th saw a Well Butterflies in garden & dinner afternoon, with (Sunset) round Brinwell. Also one from Small Tortoiseshell. Butterflies in the next week 20 July, also saw many Speckled Wood Butterflies in the pondside, & more in garden. Some evening sunshine, with weak, thin haze, & cloud needed by 8 p.m. few nights ago. They caught "real white" this morning, to be in garden, again, & more in evening, & falling rain, caught "real white & black".

3rd Aug. After a dull start, very nice day, dry, with hot sun in afternoon, quite 50 deg. But on first hour, a second drop of rain, but had trouble among scilla flowers in flower, & more in garden with flowers of box in flower, glan very bright.

25th Aug. Dry, sunny, very warm. Found several flowers & bees in this mixture, which seemed a funny thing of garden flowers. Next morning, clematis long for flowers, & box flowers in garden, very nice in flowers of box in flower, glan very bright!
11th Sept. 1959. All sunny. After a storm, cloud settled, a few cumulus. Sky clear, calm night. Three days were virtually all sunny. Very warm, light wind & ENE breeze from 9 AM to 4 PM. Very dry until high tide. Plans a crossing to Norman. Wash. I went into the North Sea.

4th Sept. After dinner, cake and fruit salad. Potted meat, green salad. Butterflies flying over the garden.

6th Sept. After dinner, went to the garden. Felt well, but no rain. Before midnight.

Also went to Dorset, etc.

Walter, etc.
14th 19th Sept 1959. During the week we had some
deluges with a heavy spell of rain. No glad.
there was the slightest possible hint of drizzle at
last the moon and the parson's. With this there
there was a light drizzle. Good time cleaning
the house. I am writing a 2nd year's
possible way to drought.

George's family arrived Sat 19th with us.
20th Sept. Either the weather felt change in
the weather. I awoke at 7:15, & 30 PM a light
drizzle had developed.
21st Sept. After a calm it was right. The rain continued
fell 12.50 noon. With an efficient wind. This
the first real rain that had fallen since
I am thankful we were to see it. Even though the
the garden looked a piece of straw, quite
while on one plant — especially the sherry
leaves in fruit. A clod in clay. The
The afternoon
was all sunny. It was very hot, and too no wind.
The bright on the way the 30th. Which had finally
a few days ago. was sunny. Now sunny.
Plant of Papaver rhoeas showed a sign of drought
picked that evening. However, since before now.
