Ways I Will See

• There are many things to see at the National Museum of Natural History.
• I can look up and I can look down. I can go left or I can go right.
• It is a very big museum and I will stay with my adult.
• I will look at one thing at a time.
• I might not get to see everything.
Lighting

• Some exhibits are darker than the rest.
• This is to help protect the objects that are on display.
• Some objects are very old, and very delicate: even light can damage them.
Things I May Hear or Watch

• There are many sounds to hear in the Museum.
• There are many videos to watch.
• I might see a video of a scientist on a boat. Or of about mammals.
• If it is too noisy for me I will let my adult know so we can take a break.
On Exhibit

• I will see different kinds of things on display.
• I will see living animals and insects.
• I will see animals that used to be living
On Exhibit

- I will see models. They are made to look like living animals, but they were never alive.
- I will see fossils. They were alive a long time ago.
There are things I can touch in the exhibit that will teach me about natural history.

There are drawers I can open carefully.

There are replicas of fossils.

There are interactive computers that I can use.
Ocean Hall

- When I am at the National Museum of Natural History, I can visit the Ocean Hall.
- This exhibit tells the story of the ocean and the plants and animals that live in it.
I can visit the African Voices exhibit.

In it I can learn about the people who live in Africa.
I can visit the Hall of Human Origins.

The Hall of Human Origins Exhibit tells the story of how humans have changed over the last 6 million years.
Mammals Hall

• I can visit the Mammals Hall.
• The Mammals Hall tells the story of many different mammals.
• Mammals are a type of animal.
Exploring

• There are many things to explore in the Natural History Museum.
• If I find something scary I do not have to look at it.
• I can let my adult know and we can keep walking.
