Detail Opportunity

Detail to Associate Director for Science, STRI

About the Job:
Under the general supervision of the Acting STRI Director, the detailee will work with the Director in planning, directing and managing STRI science and academic programs. The incumbent also supports the Director in providing scientific leadership and guidance to the scientific staff, fellows, students and visiting scientists on their research in tropical science.

The length of the Detail can be up to 120-days as agreed upon by both organizations with the possibility of extension.

Requirements:
• Demonstrated expertise in biological sciences, agriculture, natural resource management, chemistry or a related discipline
• Ability to concisely communicate, understand and interpret information.
• Ability to work independently after initial instruction has been provided.
• Ability to analyze and use critical thinking to problem solve and take appropriate actions.
• Excellent oral and written communication skills.
• Ability to be innovative and flexible in helping management officials meet their strategic goals and objectives for the office.

Grade Level:
Must have one year of experience at or equivalent to the GS-15 level.

How to Apply:
Please submit your resume to ExecutiveResources@si.edu, with “STRI Detail” in the subject line. The submission deadline is Friday, April 9, 2021.
